13	Arcing Stationary Contact.....	1	95918
14	Arcing Moving Contact.....	1	66348
15	Arc Horn.....	1	764545
16	Arc Box.....	1	673451

†When ordering coils, give identification number stamped on coil.
See table of coils on reverse side of this sheet.

This is a list of the Renewal Parts and the quantities of each that we recommend should be stocked by the use of this apparatus to minimize service interruptions caused by breakdowns. The parts recommended are those most subject to wear in normal operation, or to damage or breakage due to possible abnormal conditions.

This list of Renewal Parts is given only as a guide. When continuous operation is a primary consideration, additional insurance against shutdowns is desirable. Under such conditions more renewal parts stock should be carried, the amount depending upon the severity of the service and the time required to secure replacements.

ORDERING INSTRUCTIONS

Name the part and give its style number. Give the complete name plate reading. State whether shipment is desired by express, freight or by parcel post. Send all orders or correspondence to nearest sales office of the company. Small orders, should be combined so as to amount to a value of at least one dollar, as order-handling and shipping expenses prevent us from billing a smaller amount.

Westinghouse Electric Corporation

TABLE OF BLOWOUT COILS

Amperes	Switch Style Number	Blowout Coil Style Number
20	653829	532277
40	653830	532278
