

GENERAL ELECTRIC	CURRENT-LIMITING FUSE CLF® FUSE — CLASS L 600 Volts Average Melting Time-current Curves (At 25 C ambient in open air with no initial load)	GES-8005B
Current Ratings 601, 800, 1000, 1200, 1350, 1400, 1500, 1600, 1800, 2000, 2500, 3000, 3500 and 4000 amperes Frequency Rating 50 to 60 Hertz		Catalog number series — GFBB Curves plotted to average test points. Current variations ± 10 percent. For minimum melting curves use right-hand index at top of sheet. For total clearing curve use left-hand index and add 0.004 seconds.
