AMPGARD STARTER SHUTTER ASSEMBLY

FOR AMPGARD 200 AND 400 AMP STARTERS

This shutter assembly kit, style number 2085A77G08, has been designed for shutter replacement of the Ampgard 200 AMP and 400 AMP starter cell assembly. For proper operation, the correct location of the pivot bracket must be established for the three different assemblies, (25L4/50L4, 50L2, and 25L2 wall and floor mounted cells). Assemble unit per Figure 3.
