Accessories For Front Operated Switches

A Shunt Trip Mechanism (Check ☹ East Pittsburgh for Availability) ④ ⑤	\$1050
B Auxiliary Switch ④	274
C Operation Counter ④	260
D Inverted Switch Operation ④	160
E Provision for Kirk Key Interlock (Order Style 140D441G04) ② ⑥	40
F Access Door Assembly	
Standard Door (Order Style 140D884G01) ②	130
Door with Handle Lock (Order Style 140D884G02) ④	170

List Price ⑥ Prices Include:

Three pole, single throw, front connected, group-operated AWP switch with pole units, barriers and manual operating mechanism on a common frame. Prices do not include terminal connectors. Terminal connectors can be ordered by referring to DB 34-350 and Price List 34-320.

Ordering Information

When ordering switch that is carried in W-89 stock, order by style number. Switches not carried in stock order on W-19 by Style Number – 8 weeks delivery.

Shipment

Obtain shipment quotation on all non-stock items from Switchgear Division, Component Sales, East Pittsburgh, Pa.

① All fault closing tests done at maximum voltage rating and without any protective fusing.

② Stocked (order on W-89).

③ Not stocked (order on W-19).

④ Order by description on Y3.

⑤ This price addition for the stored energy switch includes the special electrical/manual stored energy mechanism with shunt trip and two auxiliary switches. (See TCS 36-573, pages 3-5.)

⑥ Suitable for lock-type FNOE.

⑦ Switch provided with provisions for Kirk Key Lock Type "B" with 1" projection.

⑧ Switch provided with hasps for padlocking handle.

⑨ Changed since previous issue.
