VOLTAGE BALANCE RELAY

12CFVB99B

INTRODUCTION

This supplement, plus the attached GEK-41831, constitute the instruction book for the CFVB99B relay.

DESCRIPTION

Relay Type 12CFVB99B is similar to the 12CFVB11B except for the following:

1. The phase sequence is 3 - 2 - 1.
Ø3 - Terminals 5, 15
Ø2 - Terminals 6, 16
Ø1 - Terminals 7, 17
2. The internal connection diagram (0246A6890) is the same as for the CFVB11B relay. The changes for the phase rotation are made with coil lead modification.

All other information is discussed in the attached book.

These instructions do not purport to cover all details or variations in equipment nor to provide for every possible contingency to be met in connection with installation, operation or maintenance. Should further information be desired or should particular problems arise which are not covered sufficiently for the purchaser's purposes, the matter should be referred to the General Electric Company.

To the extent required the products described herein meet applicable ANSI, IEEE and NEMA standards, but no such assurance is given with respect to local codes and ordinances because they vary greatly.
