

INSTRUCTIONS

GEK-86049
Insert Booklet GEK-45375

TIME OVERCURRENT RELAY

TYPE IFC99AB

INTRODUCTION

This supplement, together with insert booklet GEK-45375, forms the instructions for relay Type IFC99AB.

DESCRIPTION

Relay Type IFC99AB is a member of the Type IFC53B relay family. The time overcurrent unit has a current range of 0.5 to 4.0 amperes. The instantaneous unit range extends from 6 to 150 amperes.

These instructions do not purport to cover all details or variations in equipment nor to provide for every possible contingency to be met in connection with installation, operation or maintenance. Should further information be desired or should particular problems arise which are not covered sufficiently for the purchaser's purposes, the matter should be referred to the General Electric Company.

To the extent required the products described herein meet applicable ANSI, IEEE and NEMA standards; but no such assurance is given with respect to local codes and ordinances because they vary greatly.
