DC OPERATED TIMING RELAY

SAM99AE

INTRODUCTION

This supplement, together with GEK-7399, constitutes the instructions for the SAM99AE relay.

DESCRIPTION

The SAM99AE relay is similar to the SAM15A with the following exceptions:

1. The SAM99AE is rated 60 volts DC.
2. The SAM99AE has a DC burden of 3.5 watts.
3. The SAM99AE uses an external resistor of 150 ohms (see internal connections diagram, Fig. 3A of GEK-7399).

These instructions do not purport to cover all details or variations in equipment nor to provide for every possible contingency to be met in connection with installation, operation or maintenance. Should further information be desired or should particular problems arise which are not covered sufficiently for the purchaser's purposes, the matter should be referred to the General Electric Company.

To the extent required the products described herein meet applicable ANSI, IEEE and NEMA standards; but no such assurance is given with respect to local codes and ordinances because they vary greatly.
